

'Ediacaran Biota' Alex Lui

SCIENCE FESTIVAL SUPER SCIENCE SATURDAY

Saturday 16th March 2019

10.30–4pm

Watson Gallery

Department of Earth Sciences

Celebrate Super Science Saturday with the Sedgwick Museum in the beautiful surroundings of the Watson Gallery, Department of Earth Sciences. Bringing all lovers of science together for hands-on activities, meet the researchers to explore new ideas and immerse yourself in the wonders of science.

Entrance to this event is through the door under the Museum steps.

Free Family Drop in event.

SCIENCE FESTIVAL EDIACARAN TALKS

Wednesday 13th March 2019

6–7.30pm

Enjoy an exclusive wander through the Galleries after hours celebrating the Cambridge Science Festival. Join us for an evening where researchers from the Department of Earth Sciences introduce you to a group of mysterious ancient organisms from nearly 600 million years ago. Discover the first complex multi-cell, soft bodied creatures; the enigmatic Ediacaran biota, which include representatives of some of the oldest known animals on Earth.

Free. 15+ Booking essential

www.sciencefestival.cam.ac.uk

MONDAY CRAFT ICE AGE MASKS

Monday 8th April 2019

10am–1pm

To celebrate our Ice Age exhibition this Easter, make your own Ice Age mask. Become a wolf or a sabretooth tiger for the day and explore the cases in disguise...

Free family drop in

Colonel Carrot' Cambridge University Library

COLONEL CARROT AND HIS VEGETABLE KNIGHTS

Thursday 11th April 2019

10–11am and 11.30–12.30pm

Come and hear about the adventures of Colonel Carrot and his vegetable knights. Storyteller Marion Leeper tells adventure stories inspired by the drawings of Charles Darwin's children.

Children must be accompanied by an adult. Suitable for age 3+

Free. Booking essential, tickets released on our website in March 2018

EDIACARAN SUNCATCHERS

Tuesday 16th April 2019

10am–1pm

Now it's the Easter holidays who knows what the weather will bring? Why not decorate your windows with your very own Ediacaran Suncatcher? Once you have made your suncatcher see if you can find the beautiful examples of these mysterious fossils in our new temporary display in the Museum.

Free family drop in.

STONE SOUP STORY TELLING WORKSHOP

Friday 31st May 2019

10am–1pm

10–11 and 11.30–12.30

Story-making for young storytellers.

Come along and play with rocks, dinosaurs and volcanoes; make up your own story and craft a small book to keep it in.

**Free family drop in.
Suitable for age 4–7**

FUTURE FOSSILS THE BIG WEEKEND

Saturday 6th July 2019

12–5pm

Parkers Piece Cambridge

Celebrating the start of the Summer at the Museum programme, join the Sedgwick Museum in the FunLab tent at the Big Weekend on Parkers Piece in Cambridge city centre. What will geologists of the future find preserved in rocks forming today? Have a go at predicting what future fossils might look like by making your own from plaster.

Free family drop in.

Suitable for all ages with adult supervision.

SUMMER AT THE MUSEUMS

In partnership with University of Cambridge Museums we will be offering a packed programme of free and low cost family events over the summer holidays including craft and hands on activities. **Check our website and Facebook page in early summer to find our events for Summer at the Museums.**
